

Serving Our Community by Providing a Weekly Meal

Every Monday evening, members of one of our Life Groups volunteer to prepare a meal for folks in our community that might need assistance with their grocery expenses, stretching their grocery budget a little. These volunteers do the work, from baking in the early afternoon through washing the last dish; even though they may arrive at different times, depending upon their availability, abilities, and schedules. Food service and health safe-guard regulations are of the standard required by our local restaurants and approved by the Kern County Public Health Services Department. Anyone in our community is welcome to drop in. Dinner is served from 6:00pm – 6:30pm.
